Independent tests prove NAPCO wireless outperforms the competition

We had every major manufacturer’s wireless put to the test and one system outperformed the rest by as much as 50% – NAPCO’s Gemini. Even under torture-test conditions, in the toughest industrial warehousing, NAPCO Gemini crystal-control transmitters cut through with stronger strength for superior range & reliability.

Requests for the report of these findings (by NY Testing Laboratories, Inc.) may be made in writing to NAPCO, ATTN: RF TEST MKTG, to the address below.
