

StarLink[®] LTE Cellular Communicator Models

Why More Dealers Choose StarLink:

- ✓ **Universal** - work on any alarm panel brand, intrusion, connected biz or home &/or commercial fire (FACPs 12V and 24V), available as low as FREE with "StarLink Free for All" Program™*
- ✓ **Easiest Install** - In under 15 minutes
- ✓ **Smart SMS Notifications & Remote programming or Up/downloading, Virtual Keypad App on top panel brands with StarLink Connect[®]** (Honeywell[®], ADT[®], DSC[®], Gemini[®])
- ✓ **Panel-Powered Technology™** - No power supply to add on or bother with (no conduit either) - low current draw (71mA standard & sole path fire models; 100mA dual path fire)
- ✓ **Save More Labor & Costs with StarLink Fire Dual Paths** - including 4 programmable EOLR zone inputs; 2 Form C Relay outputs (no extra supervision modules to buy); + 2 modular Telco jacks for EZ FACP-connection
- ✓ **Reliable cell reporting to Any Central Station** - Your account or a takeover - Directed to your choice of central
- ✓ **Better LTE Performance with Unique Signal Boost & Dual Diversity Antennae** - Amplifies signals to work, even in fringe areas where others won't - 2 antennae for null avoidance; receive signal on both antenna simultaneously
- ✓ **Optional Extended-Range Universal StarLink Omni™ Indoor/Outdoor Cell Antennas for all top brands** - Complete with low-noise cable & mounting hardware (see pg 2)
- ✓ **Proven StarLink Reliability, Labor Savings & Class-Leading Technology** OTA (over air) firmware upgrades. Preactivated to ensure communication, saving onsite labor & time.

Commercial Fire Cellular Reporting
