StarLink Dual SIM UL Commercial Fire Alarm Reporting

StarLink FIRE MAX2

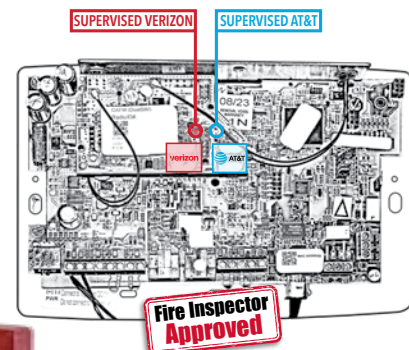

StarLink MAX2 Dual SIM FACP Communicator, Verizon + AT&T. UL 864 Listed

- **Versatile and Universal:** The Dual SIM, Dual Path StarLink Fire MAX2 communicator provides 5G LTE-M cellular and/or IP commercial fire alarm reporting from any panel or FACU brand, offering reliable communication virtually anywhere.
- **Single High-Performance Model, Works 3 Ways:** Stock one model on your truck for all commercial fire communications. It supports both Verizon® and AT&T® networks with options for sole or dual path cell/IP, or Napco's exclusive Super Dual™ Supervised Dual Cell, Dual Network Cell-Only Dual Path UL 864 reporting.
- **Super Dual™ Plan:** The only supervised dual cell-only, UL 864 dual path plan option for faster installation without using IP, eliminating IT/firewall complications. Available on all StarLink Fire MAX2 models via NapcoComnet.com.
- **Automatic Carrier Selection:** Intelligent Auto-Network-Select by Site tests network quality at power-up, locking in the best carrier (AT&T® or Verizon®) and dynamically switching as needed. Active network visual indicators, Verizon (Red) or AT&T (Blue) LEDs.
- **Code-Compliant & Cost-Saving:** UL & NFPA compliant, replacing 2 POTs lines/FACU and saving thousands annually over leased landlines. Supports 12V-24V control panels & FACUs, ensuring reliable fire alarm reporting with no additional power supply or conduit needed.

Super Dual – Napco Exclusive Supervised Cell-Only Dual Path Option, UL864 – No IP/IT Delays, Permissions or Network Issues

- **Award-Winning Innovation:** The StarLink Fire MAX2 Dual SIM/Dual Path Fire Communicator, featuring the exclusive Super Dual™ technology, is designed to save time & labor for fire alarm professionals during system installations.
- **Industry-Exclusive Dual Path Solution:** This UL864-Listed communicator offers a 'Cell-Only' solution for any 12V/24V FACU, eliminating the need for labor-intensive IP/IT connections. It auto-selects the best cell carrier during installation and dynamically switches between Verizon and AT&T for optimal signal and quality of service (QoS).
- **Selectable Plans for Flexibility:** The Super Dual plan is available on All StarLink Fire MAX2 (e.g., #SLE-MAX2-FIRE) along with traditional Cell/IP options, offering flexibility & ease of standardization.
- **Cost-Effective & Convenient:** The StarLink Fire MAX2 comes at a new low cost & rate, with the added benefit of an **Instant Pro Rebate**. There's no need for mailing or sending in any forms.
- **Streamlined Stocking:** With just one model to stock, the StarLink Fire MAX2 simplifies inventory management & is available in metal versions with or without power, making it a versatile and efficient choice for professionals

FireLink & FIREWOLF Commercial Fire Systems

FIRELINK FLX-2 SERIES All-in-One Addressable & Conventional FACPs, with LCD Touchpad & StarLink Fire MAX2 Dual SIM Cellular Onboard

Two Models Featuring:

- Award-Winning All-in-One Design: FACP, StarLink Fire MAX2 5G Dual SIM Verizon + AT&T Cellular Alarm Reporting & Menu-Driven Annunciator Saves Both Installation Time & Money
- Lowest Equipment Cost Available for Any Full-Featured Cell Reporting Fire Alarm Solution
- Proven NAPCO StarLink Fire® Sole or Dual Path Cell-only or Cell/IP Reports to any Central Station, via dial up or IP, without any special equipment.
- High-Performance Dual Diversity Twin Antennas & Signal Boost™ Circuitry for greater range & reliability
- Cloud-based Programming from any smart device. Eliminates the need for software, training or lugging a PC
- Integrated sync and smart operation support on each NAC for System Sensor™ and Wheelock® Notification Devices
- Pro Tradeup Incentive Eligible • 36-Month Napco Warranty • NFPA & UL Compliant - UL864 10th Edition and UL985. CSFM

FireLink FLX2-32 8 to 32 Conventional Zones

- Conventional All-in-One FACU with StarLink Fire MAX2 Dual SIM/ Dual Network Cellular & LCD Touchpad Built In
- **Inside: StarLink Fire MAX2 Dual SIM/Dual Path Communicator** for 5G LTE-M alarm reporting built in, auto-selects best signal for Verizon & AT&T Cell Networks (red/blue network specific indicator inside) and swaps as needed.
- Selectable plans for sole or dual path service, cell or cell/IP in one &/or exclusive Super Dual™ Supervised Dual Cell-Only Dual Path UL 864 Listed reporting (no IP/IT/ Firewall issues)
- Cloud Programmable from any Smart Device
- Out-of-the-Box Preprogrammed, for 8 Conventional Zones - Ideal for waterflow applications
- 4A/24V Power Supply, (2ea) 24V NACs @ 2A ea., for up to 4 max
- Locking Enclosure: 16" x 14.25" x 5.2" (HWD) without cover. Houses up to 16Ah @24V battery backup capacity

FireLink FLX2-255 Addressable FACP

- Addressable All-in-One FACU with StarLink Fire MAX2 Dual SIM/Dual Network Cellular & LCD Touchpad Built In – Saves Equipment & Labor Costs
- 128 Addressable Points, Expandable to 255 (w/ 1 module, GEMC-FW-SLC)
- **Inside: StarLink Fire MAX2 Dual SIM/Dual Path Communicator** for 5G LTE-M alarm reporting built in, auto-selects best signal for Verizon & AT&T Cell Networks (red/blue network specific indicator inside) and swaps as needed.
- Selectable plans for sole or dual path service, cell or cell/IP in one &/or exclusive Super Dual™ Supervised Dual Cell-Only Dual Path UL 864 Listed reporting (no IP/IT/ Firewall issues)
- Cloud Programmable from any Smart Device
- 7A/24V Power Supply, (4) 24V NACs @ 2A ea., max.
- XL Locking Enclosure: 16" x 25" x 5.2" (HWD) without cover. Houses up to 32Ah @24V battery backup capacity

NEW! FLX-RFA Remote Fire Annunciator

See more Page 5

Firewolf GEMC-FW Commercial Fire Alarm Control Units Modular, Flexible Design for Conventional/Addressable &/or Wireless

Features

- Up to 255 Addressable points
- Up to 255 Conventional Zones
- Up to 125 Commercial Wireless Devices
- Up to 255 Zones of Combination Technology
- Custom Alphanumeric Backlit Keypad, GEMC-FK1 LCD Fire Keypad (red)
- Dual Line Digital Communicator (SIA & Point ID)
- Internet Communications
- 195 individual User Codes
- 4 NAC Circuits (7 Amp)
- Up to 15 Remote Annunciator
- Backup, Split & Dual reporting capabilities
- "Error check" feature assist in proper programming
- Locking enclosure

Popular Panel Accessories

- GEMC-FK1 Red LCD Fire Keypad
- GEMC-EZM8 Eight (8) hard wired zone expansion module (Burg or Fire)
- GEMC-RECV Commercial Burg or Fire Addressable wireless Receiver (255 point capacity)
- GEMC-RM3008 Eight (8) Form "C" relay outputs (programmable for Burg or Fire)
- GEMC-F8ZCPIM Eight (8) Conventional Fire Zone module

FireLink NAC7 Remote Power Supply for all FACUs

- Economical Use with Any FACP
- 4 Supervised Outputs, 2Aea, combined 6.5A max regulated NACs:
 - ▶ 4 Class B or
 - ▶ 1 Class A and 2 Class B or
 - ▶ 2 Class A
- Low-Battery & AC Supervision Relays for any FACP Panel
- Isolated Input Terminal to Sync Smart Outputs (Listed Wheelock, System Sensor, Gentex)
- Supports up to 32 Amps of Battery Charging
- Compliances: UL 864, CSFM, NFPA72 (& Temporal sounding), FM, NYC FD

Prima Self-Contained Security Video & Smart Home Automation System for Today's Competitive Market

Napco's Prima 7" Super Panel is a sleek, professional-grade system that controls security, fire, HD video, and Z-Wave Plus automation in one intuitive multilingual panel, wallmount or tabletop stand and 24Hr Li Batty Backup (included). All-New Backend Powered by StarLink

- Lower Account Acquisition Costs and Add More Accounts/Day
- Priced to Alleviate the Pain of Rising OPEX Operational Costs
- Designed to Reduce Labor & Minimize Training Requirements, with fastest setup in minutes, anyone can do
- Award-Winning Featureset that Attracts Today's New Consumers
- Patented Self-Healing AI Video Wi-Fi prevents costly, often unbillable truckrolls, e.g., when routers, passwords, are changed etc.
- Just 2 Simplified Service Plans, Full Dealer Dashboard, App Control & Reporting

Lower Costs & Services and Speed Installation/Setup - So Easy Anyone Can Do It:

Prima is the Resi RMR Solution You've Been Looking for to Cure Rising Costs & Lowering Acquisition Costs

Prima lowers account acquisition costs & eases labor shortages, easily enabling more accounts per day. Priced to combat rising operating costs, saving on both equipment costs & service plans, it's designed for quick setup with minimal training. Award-winning features attract new consumers and open markets.

Your Sales Rep Can Sell & Setup Prima in One Appointment

With a streamlined installation process, and spoken multilingual voice-prompts, Prima's simple sensors, onscreen video tutorials, one-button camera activation, and/or account creation wizard, allow for fast, efficient installs – saving time & costs. (It's even DIY-Capable for Ship/Self-Setups.) Save your *super-tech* for those big jobs!

Affordable and Just 2 Cost-Effective Service Plans

Prima's 3-in-1 system offers significant savings in both setup and service fees, enabling installers to create more RMR-earning accounts daily. Order by individual component or by Kit, with two 3-1 System Kits, with or without HD video doorbell, in Verizon or AT&T.

Proven High-Tech Consumer Purchasing Triggers:

Prima includes voice assistant, a 2MP camera, two-way live video from cameras or doorbells; integration with personal speaker devices like Alexa, and popular Z-Wave entry locks (e.g., Schlage), and a full range of Prima upsell accessories— Easily checking-off all the boxes for potential customers.

Full Line of Prima Pro Components, for Residential & Light Commercial Applications, Too:

Prima is conveniently available in 2 cost-saving kits (with or without doorbell), or ala carte along with the full line of upsell accessories, from video cams & solar panel chargers, to recessed & low profile sensors, from glassbreak, flood & temp sensors, to extra plug-in Siren/Strobes & smart, watch-style panics, etc.

Patented Self-Healing Wi-Fi Video Prevents Service Calls:

Prima Video Cameras feature self-healing WiFi for consistent connectivity, eliminating unnecessary truck rolls. Video Doorbells offer one-button activation & long-lasting, self-healing performance, both in hardwired and wireless options.

ORDERING INFORMATION

Prima System Kits or Panel, Verizon or AT&T (V=Verizon or A=AT&T suffix)

- **PKIT1V or PKIT1A** System in a Box: 7" Super Panel, 3 Window/Door Transmitters & PIR, with wall & tabletop brackets, mounting supplies & long-life batteries, supplied
- **PKIT1DV or PKIT1DA** System + Doorbell in a Box: 7" Super Panel, 3 Window/Door Transmitters & PIR + Doorbell (Hardwire), w/ wall & tabletop mount brackets, long-life batteries
- **PP1V or PP1A** All-In-One 7" Super Panel-Only, with mounts

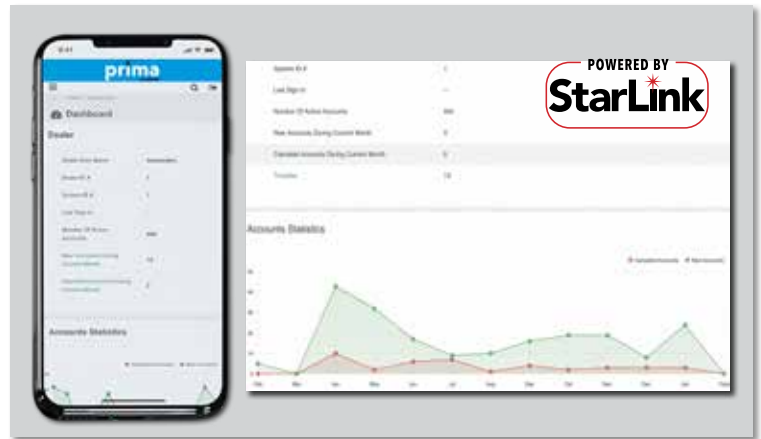

PRIMA ACCESSORIES:

- **PBELL** Self-Healing Wi-Fi HD Video Doorbell (Hardwire, 10-30VAC)
- **PWBELL** Wireless Self-Healing WiFi HD Video Doorbell
- **PCHIME** AC Plug-in Chime w/ 433 MHz connects to cameras & Panel
- **PCAM** Indoor/Outdoor HD Camera, w/ Self-Healing WiFi & EZ-Magnetic Mount
- **PSOLAR** Solar Panel Option, for recharging cameras
- **PWD** Window/Door Transmitter
- **PWTEMP** Flood/Freeze Temperature Sensor
- **PGB** Glassbreak Transmitter*

Gemini Hybrid Security Options & Alarm Systems

Gemini Advanced Security Systems for Residential & Commercial Applications

Featuring:

- Gemini Mobile App for Security, Video & Access Control, Remote Virtual Keypad with programming and SMS/MMS Alerts or Notifications Customizable with your logo and contact info (Free from Google Play® or the App Store®)
- Gemini Security 4" Touchscreen with built-in 4 zone EZM expansion
- iBridge Multifunction 7" Touchscreen for control of security system, live-video viewing up to 6 iBridge video cameras or video doorbells, or smart control of Z-Wave devices
- Wide choice of keypads, wireless crystal-controlled transmitters & dual-diversity receivers for all applications
- High-Speed Up/Downloading, locally, remotely & over cellular w/ StarLink Communicators
- StarLink Cellular Communication options, primary or backup & phoneline cut supervision
- Event log with open/closing suppression
- EZ-Programming mode at keypads ideal for no-roll service calls via App
- Backed by Napco Reliability & 3-Year Warranty, including 12-mos. over-the-counter exchange
- Multi-stage lightning protection
- Gemini Access Control (shown below) Easily & affordably add on an access door at a time (HID). In enclosure w/ power supply & battery backup provision. Single-site programming, shared database & fast transactions

Dealers: Free Customizable Consumer Brochures/Statement Stuffers & Videos Available

GEMP816

- 8 to 16 hardwire zones/points
- Two 2-wire fire zones
- 16 user codes
- EZ Programming at keypad & Auto Arm
- 256 event log
- Feas.: Interior bypass group; 3 Outputs

GEMP1664

- 8 to 64 hardwire or wireless zones
- Up to 64 fire zones, with 2, 2-wire fire
- 64 user codes
- 4 areas
- 400 event log
- 3 -16 outputs;
- Feas.: 2 PGM outputs; interior zone group; 2 prog. chimes by zone

GEMP3200

- 8 to 32 hardwire or wireless zones/points; up to 48 RF wireless points
- Two 2-wire fire zones
- 48 user codes
- 2 areas
- 800 Event log
- 3 -24 relay outputs; 1 prog. lug
- Feas.: Auto arm/disarm; 255 Event scheduler; bypass groups
- Gemini Access module support

GEMP9600

- 8 to 96 hardwire zones/points
- Eight 2-wire fire zones
- 96 user codes
- 8 areas
- 800 Event log
- 3 -96 relay outputs, 1 prog lug
- Feas.: Auto arm/disarm; 255 Event scheduler; bypass groups
- Gemini Access module support

GEMX255

- 8 to 255 hardwired zones or wireless zones/pts
- Up to 96 fire zones, with eight 2-wire fire zones
- 8 areas
- 195 user codes w/ o/c by user
- 3 -96 relay outputs, 1 prog lug
- 800 Event log with open/close suppress
- Feas.: Auto arm/disarm; 255 Event scheduler; bypass groups
- Gemini Access module support

NAPCO COMMERCIAL

GEMC Commercial Burg/Fire Combo or Burglar Alarm Systems: Modular, Flexible Design for Conventional/Addressable &/or Wireless

Features:

- Up to 255 Addressable points
- Up to 255 Conventional Zones
- Up to 125 Commercial GEMC-WL Wireless Devices
- Up to 255 Zones of Combination Technology
- Custom Alphanumeric Backlit Keypads, GEMC-BK1 with 4-Zone EZM(white); also -FK1 (Fire model)
- Dual Line Digital Communicator (SIA & Point ID)
- Internet Communications
- 195 individual User Codes
- 4 NAC Circuits (7 Amp)
- Fully Isolated Fire & Security Bus Communications
- Up to 15 Remote Annunciator
- Backup, Split & Dual reporting capabilities
- "Error check" feature assist in proper programming

► Available in Combo Burg/Fire and Addressable Burglary configurations in 32, 128 & 255 Zones with array of peripherals & devices (for Commercial Fire options also see pg 4)

SECURITY TECHNOLOGIES

Innovative. Integrated.
Long-Lived. Low-Maintenance.
Dependable Code-Compliance

Today's Smart Solutions. Dependably Made Under One Roof

Napco Security Technologies has been designing and manufacturing the security, fire, access control & locking systems, that businesses, schools, residential properties, institutions, and government have come to rely on for over 50 years. While times and technologies change, the commitment and adherence to the highest industry standards for quality, durability, & customer care should not. Know, that although we make solutions for every security application and budget, our entire company is dedicated to just one thing: **Helping You Keep it All Safe & Protected.**

Access Control
Commercial Fire
Intrusion & Video
Locking & Hardware
