www.napcosecurity.com

New NapcoAccess™ Access Control Systems are full-featured cutting edge, easy-to-use systems for 2 to 128 doors, and can be integrated seamlessly with or without Napco Gemini Alarm Systems. The full line consists of NAX-200X Controllers, AccessPro™ Software and Badger Video Badging Software, providing access for up to 10,000 badges and 256 access groups, permitting up to 2 access groups per badge. The system is easy for security professionals to implement, supporting many reader options and boasting reliable, low-maintenance access panels. And it is simple and intuitive for the enduser, featuring custom personnel fields, 128 schedules, 50 holidays, IT friendly-security and more.

Offer affordable and easy to implement access control with intelligent security made simple by Napco, available at the Napco Independent Distributor near you
