

**Don't Let Your Alarm System  
Stop Reporting Emergencies -  
Act Now! (Offer Valid thru 9/1/14).**

**Don't Just Take Our Word for It:**

**By shutting down 2G and using the same space on the airwaves for 4G, AT&T can increase data capacity by more than a hundred-fold.** Data use is skyrocketing as people adopt smartphones, and the company is facing a "spectrum crunch" in some areas. Other companies are also "refarming" 2G spectrum. Sprint Nextel is shutting down the Nextel 2G network and moving subscribers to Sprint 3G. The second generation of wireless technology debuted in the 90s and was the first one to apply digital technology to cellphones, boosting call quality and network capacity. Third-generation networks, with higher data speeds, starting becoming widespread in the U.S. about six years ago

**Urgent Message to Our Valued Customers:**

*Just like all the cell phones in your home needed upgrades,  
Now, the cellular communicator on your alarm system needs one!*

## **Be Sure Your Alarms Keep Getting Through!**

**To Keep Your Family Safe,  
We'll Upgrade Your System's  
Cellular Communicator to  
The 3G/4G Network  
For Only \$99 (a \$200 value)**

*Plus, Get FREE Installation, if you Act Now\**

- Ensure Uninterrupted Alarm Service
- Get Faster Alarm 3G/4G Reporting in an Emergency

## Act Now to Avoid Alarm Service Interruption:

AT&T, Sprint, T-Mobile, and other cell carriers are already upgrading their cell networks to free up more space for today's smart phones, tablets and 4G devices, by eliminating the support of 2G (2nd-Generation) devices. *This includes the one in your home now, that sends out alarm reports from your security system.*

## Free Installation For a Limited Time:

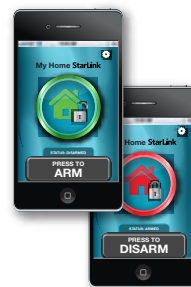

We'll install your new 3G/4G faster, cellular communicator for **50% Off Just, \$99 (a \$200 Value) Plus, We'll Waive the Installation Charge.**

## Upgrading Has its Advantages, Too

We'll even give you a **Free App & Remote Security System Control For the Lifetime of your Contract** - Turn on and off your alarm, from anywhere, 24/7, anywhere you are. Did you forget? Did your family? Get new peace of mind, on the go.

*Easy One-Button Arming or Disarming of your security system with fast 4G response on your smart phone, smart tablet or any smart device.*
