

NAPCO introduces a new revolution in home security ...

**FREEDOM**  
BY NAPCO

## The code-free system as easy to use as locking the door

**FREEDOM** to sell and to attract the 78% of households that don't want to live with the hassles of using a traditional alarm.

**FREEDOM** from codes to memorize and changing daily routines.

**FREEDOM** from any stressful exit/entry countdowns (times during which 80% of false alarms occur).

**FREEDOM** from time-consuming account training & retraining callbacks

**FREEDOM** from false alarms, fears, fining and false dispatch issues. *In fact, it's impossible to have a false alarm when exiting and entering with this system.*

**FREEDOM** from unnecessary, costly central station traffic and operator activity

**FREEDOM** from account attrition. Keep more accounts by keeping them using their simple systems daily, confidently.

**FREEDOM** to do an install in as little as an hour, including a convenient wireless lock sensor, interior siren built in to the touchpad and downloadable 8-zone hybrid control.

**FREEDOM** to use the full line of Gemini wireless transmitters proven to outperform the reliability of top competitive brands.

**FREEDOM** to designate the exit/entry door as the inside garage door or exterior automatic garage door

**FREEDOM** to sell a second Bedroom Touchpad.

Freedom adapts to their lifestyle – Guaranteeing you more accounts and customer satisfaction, while virtually eliminating false alarms and attrition

# FREEDOM

## The code-free system as easy as locking the door

### Coming home?

Unlock the deadbolt to disarm the system.

### Going to bed?

Lock the deadbolt and press the Stay button.

### Leaving?

Press the Away button, lock the deadbolt and go!

- Installs in as little as an hour with wireless lock sensor and built in 95db siren in touchpad
- Ambush/bypass/chime functions
- Full-featured, 8-zone Napco downloadable hardwire/wireless panel

### Garage Door Applications

for exterior automatic garage door or interior garage door used as main entrance.

### Bedroom Touchpad

enables 1-button arming and disarming, also displays system and deadbolt lock status, too.
